

Energetiks Shoe Size Guide

This size guide is provided by Energetiks – please contact us at Dancestuff if you are unsure of sizing before you place your order

Shoe size charts are a guide only, they should be used as an aid and should not replace a personal fitting. Dance shoes should fit firm with very little growing room to ensure the foot is well supported.

Our charts are reflective of a 'professional' fit (a tighter fit) and are here to give you a general idea on sizing. Order one full size up for growing room. Please note that shoe size may vary due to the shape and width of the feet.

How To Measure Your Feet:

1. Place a piece of blank paper on a hard floor.
2. Stand on the paper.
3. Holding a pencil vertically, place a mark at the end of your heel.
4. Place another mark at the tip of your longest toe.
5. Repeat for other foot.
6. To find your size, measure the heel-to-toe mark in centimetres.

Jazz Shoe Size Guide
